[illegible]

Manufacturers of cereal (in %)

What goes into the average cereal for each manufacturer

(in grams)

Q. List at least 3 skills you used to create your visualization
A. 3 skills needed to create this visualization
- Being able to search and find a dataset for the visualization
- Understanding of Google sheets
- Understanding of what visualization would work best for the given type of relationship in the data
Q. Who is this visualization for, i.e. who is your audience?
A. I first looked at this dataset and thought of my friend who loves cereal, but always picks the one with most sugar content. However, it can be utilized by anyone who likes to eat cereal and was wondering about which one to choose.
